

INDEX

1. CANCELLARIO *et al.* First record of *Trocheta subviridis* Dutrochet, 1817 (Arhynchobdellida, Erpobdellidae) from the north-eastern Iberian Peninsula (Navarra, Spain)
7. LÓPEZ-DE SANCHA *et al.* Brown trout density effects on the macroinvertebrate and biofilm communities of headwater streams: a cage experiment
19. PINTO AND SMITH. Impacts of sedimentation and dam failure on the macroinvertebrate community in a tropical stream
37. ÁLVAREZ COBELAS AND ROJO. Bridging community and metacommunity perspectives in benthic photosynthetic organisms (Serranía de Cuenca, Central Spain)
55. LINARES *et al.* The past is never dead: legacy effects alter the structure of benthic macroinvertebrate assemblages
69. CARNEIRO AND FERRAGUT. Periphyton responses to enrichment and nutrient dilution in two mesocosm experiments in a shallow hypereutrophic reservoir
85. DONATO-R AND DUQUE. Littoral areas of Amazonian floodplain lakes: a biological reserve to biodiversity loss
101. GONZÁLEZ *et al.* Las moscas negras (Diptera: Simuliidae) en cursos de agua urbanos y suburbanos de la ciudad de Vitoria-Gasteiz (País Vasco, España)
119. PEZZATTO AND TONETTO. Do the effects of substrate complexity influence the emergence position of microalgae on streams?
127. FERRAZ SAMPAIO *et al.* Temporal stability in beta diversity does not guarantee surrogacy or compositional stability in a micro-phytoplankton metacommunity
143. LOPES FILHO *et al.* Bromeliad phytotelmata: the first scientometric study
155. BALLESTEROS *et al.* Composition and distribution of hyporheic and macrobenthic fauna in a Neotropical mountain river, Colombia
175. MELLADO-DÍAZ *et al.* First records of *Ulvella spongophila* (Ulvophyceae: Ulvellaceae) for the Palaearctic region: the discovery of four populations in the SW Iberian Peninsula
189. DEL ARCO *et al.* The response of freshwater plankton communities to temporal concurrence of agrochemical mixtures
203. VIANA *et al.* Bioaccumulation of metals and genotoxic effects in females of *Colomesus asellus* collected in an Amazon River estuary, Amapá, Brazil
215. BACCA *et al.* Land-use effects on aquatic macroinvertebrate diversity in subtropical highland grasslands streams
233. WILLIAMS *et al.* Add a dash of salt? Effects of road de-icing salt (NaCl) on benthic respiration and nutrient fluxes in freshwater sediments
251. GILBERT *et al.* La comunidad de ostrácodos en humedales del sudeste de la Península Ibérica
267. GARCÍA-DE-LOMAS *et al.* First record of *Linderiella jebalae* Boix, Sala, Escoriza & Alonso 2016 (Crustacea, Branchiopoda, Anostraca) in the Iberian Peninsula. Dispersal across the Strait of Gibraltar?
279. SERGI SABATER. Doing Science in Ecology. Does river flow show a path?
291. GARCÍA-GIRÓN *et al.* Compositional breakpoints of freshwater plant communities across continents
303. ELIZABETH LEÓN-PALMERO *et al.* Understanding the fluxes of greenhouse gases in reservoirs under the inspiration of Margalef
